

Our security containers provide you durability, flexibility and efficiency

Our secure consoles are designed to suit most office environments.

- Non-wheeled, fixed position offers familiarity whilst promoting permanent data protection and compliance
- Aesthetic design suits most office environments, reducing risk of confusion with unsecure rubbish bins
- Best suited for regularly scheduled services in office environments
- Suitable to service in most offices without lift access
- Paper is securely held in a durable polyester bag with a spring loaded pop lock cord for efficient and secure retrieval
- Locked for added security and assurance
- Bevelled plate and internal security plate ensure documents cannot be retrieved
- Specifically designed with a wide feed slot, large enough to take up to 400 pieces of paper at a time and narrow enough to ensure that paper cannot be retrieved
- Paper securely held inside prior to scheduled destruction
- Flat top surface which is sturdy enough to take the weight of a printer
- Made with recycled materials.

Our wheeled security containers are extremely durable.

- Top-loading, durable plastic containers with larger sizes available for high paper volumes
- Ideal for higher volume areas such as post rooms, print rooms or warehouses
- Security slot to ensure paper cannot be retrieved from inside
- Wheeled and well-balanced.
