Our security containers provide you durability, flexibility and efficiency.

On a regularly scheduled service, our security consoles provide a secure and convenient solution to workplace paper disposal requirements, promoting permanent data protection and compliance.

Security console benefits:

- The unit design complements the office environment

- Permanent feature in the office, promoting data security, mitigating risk

- Locked, ensuring security and data protection compliance – keeps documents safe prior to destruction

- Bar coded for verifiable chain of custody

- Time saving alternative to an office shredder

- Fixed location – zero mobility removes risk.

Our secure consoles ensure the highest level of security.

Security console features:

- Locked for added security and assurance

- Bevelled plate and internal security plate ensure documents cannot be retrieved

- Specifically designed with a wide feed slot, large enough to take up to 400 pieces of paper at a time and narrow enough to ensure that paper cannot be retrieved

- Paper securely held inside prior to scheduled destruction

- Flat top surface which is sturdy enough to take the weight of a printer or other office equipment

- Made with recycled materials.

Tailored solutions include:

- A selection of console capacity sizes
- A range of service frequencies
- On or off-site shred options
- Convenient delivery and set up
- A certificate of destruction after every shred.

    All items placed in security consoles are kept secure until the are ready to be collected and shredded.

Regular Console
Dimensions:
51.44cm W x 49.85cm D x 91.44cm H*

Tall Console
Dimensions:
51.44cm W x 49.85cm D x 120cm H*

Shredding and then recycling makes good sense for the environment and for organisations concerned about data protection and sustainability.

The secure shredding and recycling process provides a secure chain of custody and helps fulfil your environmental duty of care obligations, so you get the best of both worlds – environmental sustainability and privacy protection.
